

## MiFi - Mobile WiFi Device Loan

We are delighted to be able to offer a limited number of MiFi devices on loan for 12 weeks. The MiFi device is about the size of a pack of cards and would easily enable you to provide up to 32 devices with WiFi connection in a communal area (where there is no existing WiFi). Instructions are included.

Because of the limited number of MiFi devices, we need to ensure that your estate doesn't currently have WiFi connection, and that you will take advantage of the device to connect to some of the Be Well groups and activities (Be Connected, Be Active, Be Skilled, Be Digital and Be Involved).
